- Backend:** Node.js, Express.js, NestJS, RESTful APIs, GraphQL, WebSocket, JSON, AJAX
- Databases:** MongoDB, MySQL, Mongoose, Prisma, SQL, NoSQL
- Tools & DevOps:** Git / Version Control, GitHub, NPM, Yarn, Webpack, ESLint, Prettier, RWD, Jira

REFERENCES

Available upon request.

PATRYK OLSZEWSKI

Full Stack Developer proficient in React, TypeScript, Node.js, Express, NestJS, MongoDB, MySQL, Tailwind, and Git. Builds responsive, scalable, and maintainable web applications with strong skills in frontend and backend development, RESTful APIs, state management, and database integration. Experienced in independent and team projects, bootcamp training, and client work, with a passion for coding, problem-solving, and modern web technologies.

WORK EXPERIENCE

Web Developer (Entry-Level Contract) 2025 – Present
Client Web Development Project – Remote

Delivering a production-ready web solution for a real client by translating business requirements into functional software features.

Key Achievements:

- Translated stakeholder requirements into actionable and complete specifications.
- Developed frontend modules using TypeScript-driven React architecture.
- Styled user interfaces using Tailwind CSS design framework.
- Applied real-time features using WebSocket event-driven logic.
- Coordinated incremental feature deliveries following development cycles.
- Documented all functionality for long-term project maintainability.
- Implemented error handling across client-side and backend code.
- Optimized application performance by reducing page loading time.

Junior Full Stack Developer (Project-Based) 2024 – Present
Independent Development Projects – Warsaw, Poland

- Engineered full-stack applications using React and Node.js.
- Architected REST APIs supporting modular and scalable logic.
- Constructed responsive interfaces following mobile-first design principles.
- Integrated databases using MongoDB and relational schemas.
- Implemented user authentication workflows for secure access.
- Optimized reusable components for readability and maintainability.
- Maintained version-controlled repositories through Git-based workflows.

Full Stack Developer Trainee August 2024 – July 2025
Kodilla Bootcamp – Wrocław, Poland

- Practiced styling workflows with modular CSS preprocessors.
- Programmed dynamic behaviors using modern JavaScript standards.
- Applied backend patterns using Express and NestJS frameworks.
- Utilized build tools for optimized application bundling.
- Executed database operations through ORM-driven abstractions.
- Earned Kodilla Full Stack Developer certification upon completion.

PROJECTS

Portfolio – React, Tailwind, JavaScript
Personal portfolio showcasing web development skills and responsive UI.

QuizApp – React, JavaScript, CSS
Interactive quiz app for gamers with dynamic question generation.

FluxShop – TypeScript, React, Redux
E-commerce app demonstrating state management and frontend logic.

CoWatch – TypeScript, React
Streaming/watchlist app demonstrating component architecture and UI.
